Brian Angelo Moreno
bamoren5@gmail.com | *###-###-####*

OBJECTIVE:
To use my passion of building as a skill to attain an entry level position that will allow me to help further myself and the company in the computer science industry.

EDUCATION:
Northeastern Illinois University *Bachelor of Science in Computer Science, 3.32/4.0 GPA, May 2019*
Harold Washington College *Associates in Science, May 2017*

COURSEWORK:
Java I; Java II; HTML and CSS Client-side Web Development; Discrete Structures; Data Structures; Algorithms; Mobile Application Development; Server-Side Web Development; Operating Systems; Computer Networks, Database Management.

TECHNICAL SKILLS:
Programming experience in Java, PHP, HTML, JavaScript and Python

PROJECTS:
Website Project, Writing Intensive Programming (Software Engineering):
For our semester project, we were tasked to build a website that utilized PHP and MySQL. I decided to go with a website that could help other students by providing a place to post questions and/or ideas. In other words, I decided to create a basic discussion forum. You can visit the forum by going to the link below.
thecsboard.com

Database Project, Java/Database Management:
For this project, we were tasked to make any sort of interactive database system using Java and MySQL. Our database is based around car rentals, you can view, update, and delete various information. You will be acting an administrator of the system. You can view our database code by going to the link below.

RELEVANT EXPERIENCE:
UL LLC, IT Intern June 2018 - August 2018
Over the course of this internship I was tasked to work on the Automated Test Framework of ServiceNow to make the update cycle more efficient. These tests are normally done by IT professionals to make sure the system is still functioning correctly after each update of the instance. Using my problem-solving skills and JavaScript experience I ended with over 90 tests automated.

OTHER EXPERIENCE:
Walmart, Overnight Zone Team Member July 2016-August 2017
Was tasked to make two to five areas of the store presentable for customers and morning shift employees. I was also tasked to sort and put back merchandise that was returned.

Farragut Career Academy, Computer Repair and Maintenance July 2013 – August 2014 Helped repair computers, physically and digitally, all over Farragut Career Academy. This included basic troubleshooting, taking apart broken laptops and desktops and refurbishing parts that did work, installing Windows 7, wiping hard drives, setting up brand new computers in classrooms all around campus, and much more.

OTHER SKILLS:
Bilingual, speak and write Spanish
Basic computer building/troubleshooting skills
